PROFESSIONAL PROFILE

PhD researcher in environmental and resource economics with experience in wildfire-smoke valuation, energy consumption analytics, and health-sector program evaluation. My work combines survey-based methods, benefit-cost analysis, and causal inference using large administrative datasets, including hospital billing data, electronic health records, and electricity and natural gas consumption data. I design stated-preference surveys, develop optimization and econometric models, and apply statistical and spatial tools (Stata, Python, R, ArcGIS) to support evidence-based decisions on public goods, environmental risk mitigation, and resource management.

RESEARCH PROJECTS

Environmental Economics & Wildfire Smoke

In Press at Land Economics

- Regional valuation study estimating households' willingness-to-pay for wildfire smoke mitigation across 11 Western states.

Research Extensions & Works in Progress

- Linking Survey Data with Observed Smoke Exposure:** Construct ZIP-level exposure measures using satellite-based PM_{2.5} predictions to compare perceived smoke exposure with modeled concentrations and assess implications for stated WTP.
- Repeated Referendum Survey on Prescribed Fire:** Multi-stage survey eliciting repeated referendum votes to study acceptance of prescribed fire smoke, perceptions of escape risk.

Energy Economics & Electrification Readiness

Ongoing Research

- Analyze household electricity and gas consumption data and implement a discrete choice experiment to quantify preferences for electrification and energy-efficient technologies, in collaboration with the Los Alamos Department of Public Utilities.

Health Economics & Program Evaluation

Ongoing Research

- Evaluate the cost-effectiveness of a Community Health Worker (CHW) program by linking electronic health records with billing data to estimate expenditure and utilization impacts, supported and funded by UNM Hospital.

EXPERIENCE

Research Assistant (RA)

University of New Mexico, Economics Department

June 2024 – Present

Albuquerque, NM

- Supported faculty research in environmental, energy, and health economics using survey methods, administrative datasets, econometric modeling, and geospatial analysis.

Teaching Assistant (TA)

University of New Mexico, Economics Department

August 2022 – May 2024

Albuquerque, NM

- Led Review sessions and discussions, held office hours, and graded assignments for 100+ students per semester.

SKILLS

Statistical & Spatial Analysis: Survey Design, Stata, Python (pandas, scikit-learn), R, ArcGIS Pro, Web scraping for Data

Business Analysis Tools: Excel (advanced formulas), Microsoft Office Suite, LaTeX

Communication & Languages: Polyglot English/French/Arabic; public speaking; technical writing; classroom instruction

Professional Strengths: Analytical problem-solving, strategic thinking, project management, adaptability

EDUCATION

PhD Candidate in Economics <i>Economics Department -The University of New Mexico</i>	Albuquerque, NM, USA 2022 - Expected 2027
Master's Degree in Economics (4.16 GPA) <i>Economics Department -The University of New Mexico</i>	Albuquerque, NM, USA May 2024
Bachelor's Degree in Applied Economics <i>Faculty Of Governance, Social and Economic Sciences(FGSES), UM6P University</i>	Rabat, Morocco 2019-2022

CONFERENCE PRESENTATIONS

Camp Resources Summer Workshop <i>8-minute presentation</i>	August 2025 Asheville, North Carolina
Association of Environmental and Resource Economists (AERE) <i>Investigating Willingness-to-Pay for Mitigating Wildfire Smoke Exposure</i>	May 2025 Albuquerque, New Mexico
The 16th Himalayan Policy Research Conference (HPRC) <i>The Effects of Air Pollution on School Absenteeism</i>	December 2021 Remote Conference, USA

GRANTS & AWARDS

Best Poster Award - Economics Research Day <i>Gold Award</i>	Economics Department - UNM September 2025
New Mexico Research Grant (NMRG) <i>Conduct a Contingent Valuation Survey for New Mexico (\$3,000)</i>	UNM - GPSA October 2024
Summer Fellowships <i>Served to Advance my Research Requirement Paper (\$3,000 *2)</i>	Economics Department - UNM April 2024; 2025
Honoree of Phi Kappa Phi <i>Honor Society</i>	UNM Chapter Initiated on January 2024

CERTIFICATIONS

Main Campus Researchers <i>Citi Program</i>	January 2025 UNM Main Campus
Social and Behavioral Research Investigators <i>Citi Program</i>	January 2025 UNM Health Sciences Center

SERVICE & LEADERSHIP

Economics Graduate Students Organization Treasurer • Managing fundraising activities to support student-led initiatives and events.	2024 – Present
Rotaract Club Member • Brainstormed and planned charity fundraising events to support community initiatives.	2019 – 2020
Enactus UM6P Club Project and team leader	2019 – 2020
